

# BLAZING A TRAIL TO YOUR BOTTOM LINE

Introducing Quadrant, a wireless fleet tracking (location) and communication service brought to you by WebTech Wireless, your wireless vehicle services solution provider. With Quadrant installed in your fleet, you can instantly track and locate exactly where your vehicles are 24 hours a day, 7 days a week. Quadrant solves four prevalent fleet management challenges:

## Reporting

- Eliminate and / or reduce overtime
- Document actual routes driven and stops made
- Replace paper timesheets or reports in the field with real-time digital reports
- Use two-way text messaging for detailed communications
- Verify 'on-the-job-times' with detailed fleet activity reports
- Verify business mileage reports with vehicle history

## Field Personnel Management

- Reduce time spent at unauthorized locations
- Reduce downtime of field employees
- Actively manage and communicate with your field personnel
- Increase productivity through fleet activity analysis
- Protect your road-warriors with detailed records of their whereabouts
- Monitor fleet activity within dispatcher-defined zones/boundaries

# QUADRANT

UNLEASHES THE POWER OF LOCATION  
SERVICES IN YOUR FLEET

## Vehicle Operations & Usage

- Reduce vehicle operating costs
- Improve fuel efficiency
- Reduce excessive idling and use of company equipment for moonlighting
- Stop unauthorized vehicle usage and speeding
- Reduce wear and tear on a vehicle
- Lower your fleet insurance costs and accident rates

## Customer Service

- Provide customers with the real-time location of all goods and deliveries
- Communicate order and route changes efficiently
- Provide navigation and route assistance
- Receive immediate notification of arrival and departures

Let us show you how simple saving time and money can be! Call for a free online demonstration today!

# View your Fleet

## Anywhere, Anytime!

### User-Friendly Online Fleet Command Centre

Quadrant acts as your fleet dispatcher's command centre for vehicle tracking, communications and service management. Enjoy a precise view of where your vehicle assets are at all times with full colour maps!

**Activity Report**  
From: April 01, 2001 08:00:00 To April 03, 2001 08:00:00

Vehicle: 888D

Total Distance: 39 km Total Travel Time: 00:36:50 Total Stop Time: 00:04:23

### Detailed Fleet Activity Reports

Quadrant gathers all of the location and vehicle usage data of your fleet to provide in-depth activity reports. Validate and verify a wide range of fleet activity from business mileage reporting to 'on-the-job-times'.

### 2-Way Messaging and Paperless Reporting

Personal Digital Assistants (PDAs) are a flexible mobile computing device alternative to traditional, bulky, lap-based terminals. Quadrant utilizes PDAs to deliver two-way text messaging and paperless reports from the field.
