

ECA Faros establishes itself in the market of simulation in the United States

SSI, subsidiary of ECA Faros in the United States, signed an important contract for the supply of simulators to the American Army.

Within the framework of this 10 millions dollars contract, ECA Faros will provide several hundreds of Car and Motorcycle simulators.

Patrick Akcelrod, General Manager, states: « ECA Faros is very pleased about the choice of the American Army of our simulators and our pedagogic programs that will serve for training more than 50 000 drivers per year ».

ECA Faros is a French company, specialized in the development of innovative equipment of simulation for the aviation and automotive industries and exports more than 90 % of its turnover.

ECA Faros is located in Lannion in Brittany (France) where are consolidated Commercial, R&D and Production teams.
